About the TRAINING COURSE:

This course introduces participants to the skills, theory, and practice of counseling to develop counseling skills and deepen self-awareness and interpersonal communication competencies. Basic counseling interventions such as empathic responding, exploration of the client's concerns and cognitions, and problem-solving will be explored. The course will use a combination of discussion and hands-on practice sessions on IPC and counseling techniques, to assist in developing counseling skills including psychosocial counseling, and increase their conceptual understanding of theoretical perspectives of IPC and counseling through practice, and case conceptualizations.

Training Objectives:

- To gain collective ideas about interpersonal communication and psychosocial counseling and gain the ability to understand the importance of practical application of these issues.
- To gain experience of standard practice on interpersonal communication and psychosocial counseling.
- To learn contemporary situational counseling strategies.

Course FACILITATORS:

The training course will be facilitated by the highly experienced facilitators from Bangladesh Center for Communication Program (BCCP) and subject experts of BTRF pool.

Course Director:
Dr. Shahidul Alam
Deputy Director (training)

A Public Health professional with more than 20 years of experience in designing and implementing capacity building training program.
